Scanstrut Rokk Wireless Phone Charger
Garmin GPSMAP 953xsv Chart Plotter
2x Fusion XS 6.5" Speakers
Scanstrut Wireless Phone Charger

THE BOW

The space-effective bow on the G380 ensures comfort and functionality. The wide bow step plate with retractable mooring cleat ensures easy access on and off the boat, while the front bow seat is supported with a cushioned backrest for a ride that is comfortable and safe.

The locker underneath the bow seat is generous in its capacity, and also houses the fuel filler for the 40L under floor fuel tank.

THE CONSOLE

The ergonomic, low-profile design of the console is complete with a windscreen, cupholder and wide dashboard, which can house a 9" chart plotter.

Choose between either a single console with removable side seat or opt for the double console with a built-in moulded side seat (and storage) for additional seating midship. In either configuration, the additional seat in front of the console with a cushioned backrest provides additional under-seat storage.

HELM SEAT

The wide helm sofa provides cushioned comfort for two people while underway, with in-built railings on both sides for additional safety.

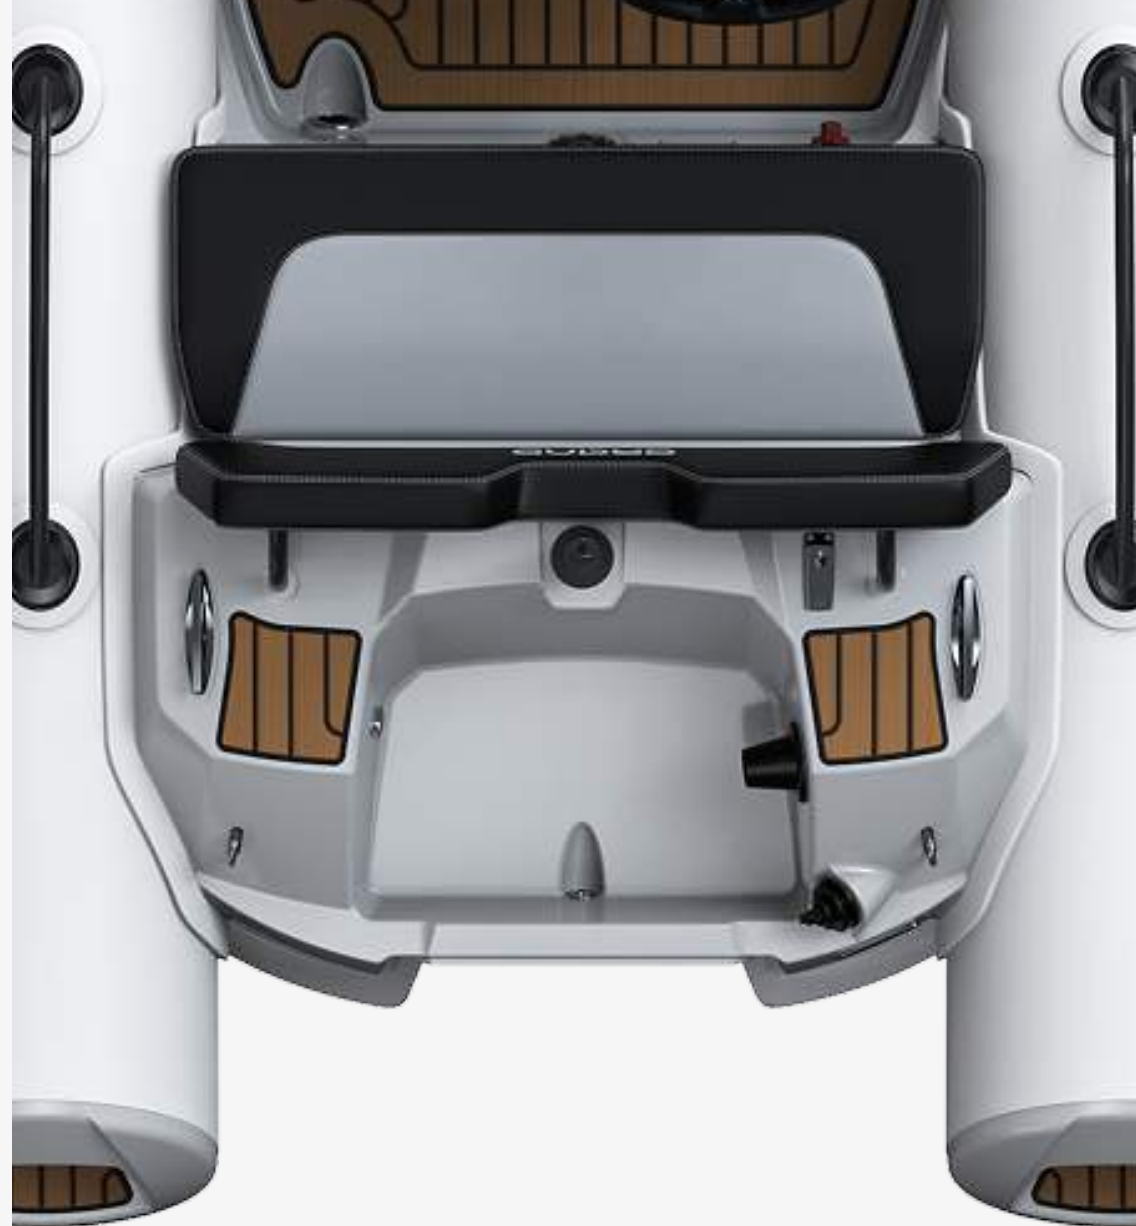

The helm seat opens up and provides a generously deep storage compartment underneath, perfect for stowing toys and equipment.

REAR SECTION

The rear section of the G380 is complete with fibreglass step ends that make getting in and out of the water or off a beach landing easy and safe. The additional foot placings, finished with SeaDek flooring, ensures a clear and non-slip passageway from the rear to the helm seat.

The addition of a ski pole empowers your waterski or wakeboarding activities.

The background of the entire image is a repeating pattern of the Grand logo. The logo consists of a stylized, bold letter 'G' with a small arrow pointing upwards and to the right, all contained within an oval border. The pattern is light gray and covers the entire background.
