GRAND G980

DESIGNED FOR ADVENTURE SEEKERS

For those who want to venture further, safer, faster - all while feeling at home on the water. The Grand G980 is an expertly-crafted flagship vessel, that not only outperforms in its performance and seakeeping ability, but also offers a truly luxurious and refined experience on the water. An exceptional twin-stepped hull - designed in collaboration with renown Swedish yacht designer Mannerfelt - combines with a versatile leisure layout to create a boat that meets the demands of those who seek real adventure.

Boasting a great host of features, a functional family layout and finished with sleek, angular lines, the Grand G980 promises both remarkable handling and seaworthiness, and sophisticated, luxurious comfort.

SIT BACK, RELAX & ENJOY THE CRUISE

GRAND G980

SPECIFICATION

Overall Length	1000 cm
Internal Length	800 cm
Overall Width	340 cm
Internal Width	190 cm
Tube Chambers	7
Engine Max	700 HP
Recommended Engine	2 x 350 HP
Passenger Capacity	16
Bare Boat Weight	2350 KG
Fuel Tank	600 L
Water Tank	105 L
Midsection/Aft Deadrise	30°/22°
Tube Material	Hypalon
Hull	Fibreglass
Upholstery	Silvertex
Flooring	SeaDek
Hull Designer	Mannerfelt

RECOMMENDED FEATURES

BOAT

Deep V Hull
Hypalon Tubes with Overpressure Valves
Keel & Tube Protection
Tube Mounted Bow Handrails
Self-Draining Deck
Hull Ventilation System
Integrated Bow & Stern Lifting Eyes
600L Under Floor Fuel Tank
105L Under Floor Water Tank
Powder Coated Stainless Steel
Overall Cover & Harbour Cover
SeaDek Foam Flooring
Silvertex Premium Upholstery
Electrical Package (NAV Lights, Battery Switch, Bilge Pump & Console Switches)

HELM STATION

Fibreglass Steering Console with Windscreen
Gussi Italia Sport Steering Wheel
Bucket Seats with Flipping Bolster Seats
Helm Glovebox with Twin USB Sockets
Fitted Helm Station Cupholders
Handrails and Grab Railings
Full Size Bar Fridge On Side Helm Seat
Wet Bar with Sink, Tap & Cooker
Wide Front Console Seat With Handrails

ELECTRONICS

x2 Garmin GPSMAP 1653xsv Chart Plotters
Fusion RA670 Stereo
6x Fusion Apollo 7.7" Speakers
Fusion 6 Channel Amplifier
Garmin 215i VHF
Scanstrut Wireless Active Phone Charger

CONSOLE CABIN

Well-Appointed Living Cabin With Windows
Electric Marine Toilet
Double Berth Cabin
Storage Throughout
USB Charging Ports & Interior Lighting

BOW AREA

Bow Step Plate with Mooring Cleats
Electric Windlass Anchor
Integrated Sleipner BowThruster System
Large Bow Lounge With Cushioned Back Rest Two
Deep Bow Lockers

STERN AREA

BOW SECTION

The spacious bow section offers ample room for sunbathing and relaxing, with space enough to comfortably fit three to four adults. The sundeck infill cushions can also be used to extend this sun bed area further - totalling around 3.35sqm.

Underneath you'll find a large storage locker for toys and equipment. There is also an anchor locker located here too. The bow step plate not only provides a sturdy place to embark or disembark, but also hosts a rope locker within too.

The addition of a bow thruster, along with the electric windlass, enhances your docking and anchoring experience.

THE CONSOLE

The large dashboard display - protected by a windshield and encompassed by grab railings - can be customised entirely to your needs. Capable of housing up to two 16" screens, the dashboard traditionally houses twin Garmin chart plotters, a Scanstrut Wireless Phone Charger, Fusion Stereo, Garmin VHF and more.

A cupholder, dash top, and a deep glovebox (with additional USB charging ports) provide storage at the helm, while the recessed positioning of the steering wheel creates additional space in front of the helm seat. At your feet, a wide, angled step provides a good foothold when cruising through bumpier conditions.

CONSOLE CABIN

A well-appointed cabin sits within the console compartment, positioned within the hull space for maximum internal space. Accessed via the flipping front locker door to ensure seamless access, entering the cabin is easy and you'll find a good level of headroom internally.

Inside you'll find two long sofa benches either side, with a marine toilet centrally located. A bed infill slots in centrally to create a large, comfortable double bed, spacious enough for two adults. With two large windows, numerous air vents, USB sockets and lights, the internal cabin is well-lit and well appointed for a comfortable night sleep on the water.

HELM SEAT

The two bucket seats at the helm provide cushioned, protective comfort whilst underway.

Built into the back of the helm seat is a functional wet bar, incorporating two 60L bar fridges, a gas cooker, full-size sink and counter top space. The reverse of the helm seat also hosts a cushioned back rest which can be flipped upwards to reveal additional storage behind, perfect for storing crockery, cutlery and food items.

THE STERN

The stern provides adaptable comfort, space and functionality for entertaining and relaxing while on the water. A wide bench seat at the rear is accompanied by flipping side seats, enabling this seating area to extend to seat 8+ people. A large, folding table is positioned centrally, making this a great area for enjoying a meal or entertaining with friends.

Lower this table down and utilising the sun deck cushion kit enables this rear area to extend into one large sunbathing area.

REAR SECTION

The rear section of the G980 is spacious and functional, ensuring easy traffic flow into and around the boat. The flipping back rests of the rear bench minimises any barrier to passage, creating easy access to the rear platforms from the main boat.

The large swim platforms, hand rail and telescopic boarding ladder ensure easy access in and out from the water. Alongside additional mooring cleats, a shower in this stern area can be optioned and fitted for washing down after emerging from the water.

SUN SHADE

The fibreglass t-top provides good coverage and effective shelter from the sun and elements for the driver and passenger at the helm. Ergonomic and incredibly aerodynamic in its design, the fibreglass top has integrated spots for built-in speakers as well as other electrical items such as lights, VHF, and is suitable for additional equipment such as radar.

The addition of sun tops that extend outwards to the bow and stern from this t-top ensures that sun protection is maximised at all points onboard.
